Adam,

Total number of staff - The Utica Fire Department has a total complement of 130 members to include support staff.
Emergency vehicles - The department has 11 total emergency vehicles, 4 pump companies, two truck companies, two tactical units and three ambulances. **Adequate number** - As the Assistant Fire Chief I will always state that I believe more emergency personnel are always needed. **Response time** - Our average response time to an emergency incident is approximately three minutes. **Impact or benefit** - Any added projects would impact any emergency agency with added work. Wal-mart always goes out of their way to assist us in any way they can. **Back-up services** - Our department has Mutual-Aid agreements in place with all surrounding departments anytime assistance is needed. If I can be of any further assistance please do not hesitate to call.

Francis A. Manfredo
Assistant Fire Chief
Utica Fire Department
